

Dynamic lighting for colorful life

LED flex strip for food lighting

Introduction

DINAM develops special phosphor proportion to emit deep pink light for Meat which can enhance the red in meat+, and light pink for Fresh Meat.

For bakery lighting applications, DINAM presents champagne gold color which can emphasize the luster of bread.

For dairy lighting application, DINAM launches gold color which enhance the luster of cheese, milk, and other dairy products.

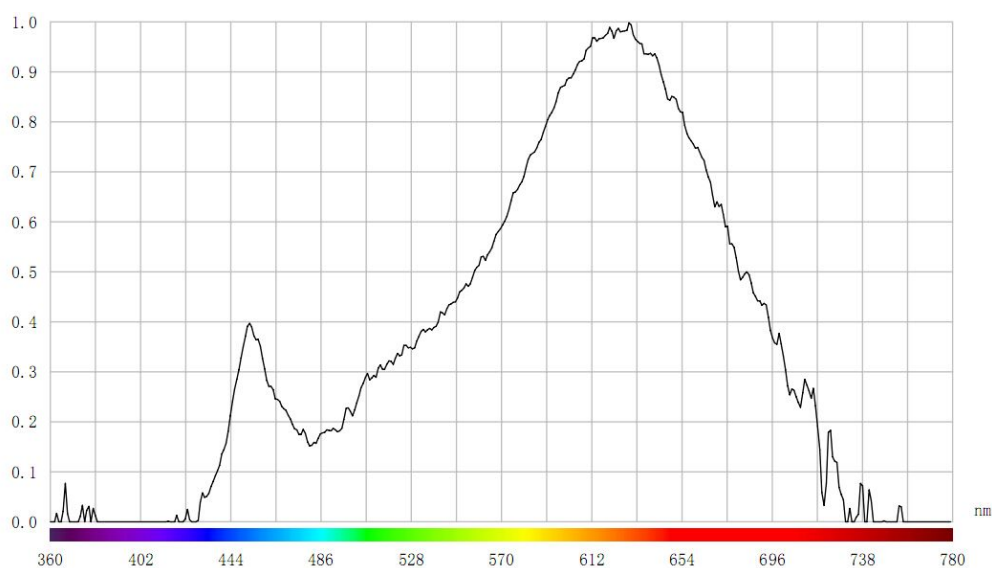

Moreover, DINAM provides fish application and vegetable application, and helps to make the food look very fresh.

Bakery:

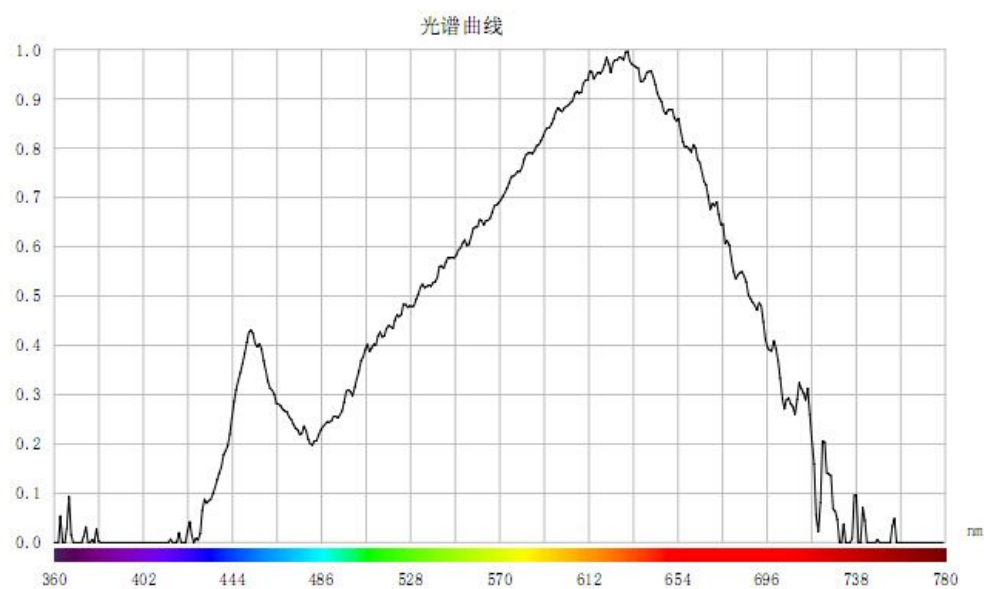

2400K+Gold

XY: (.4700, .3927)

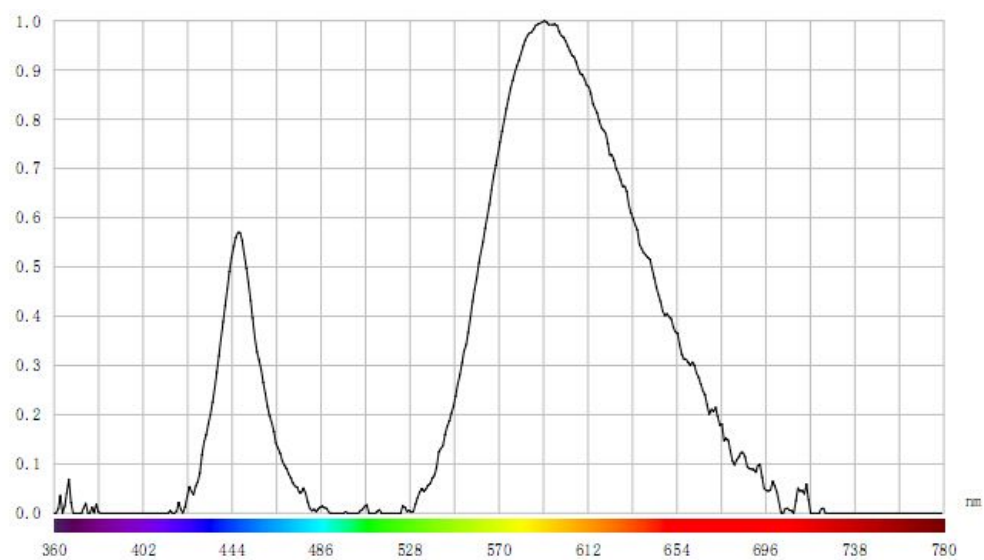

Ra: 91

Dairy:
2700K+Gold
XY: (.4480, .4047)
Ra: 94

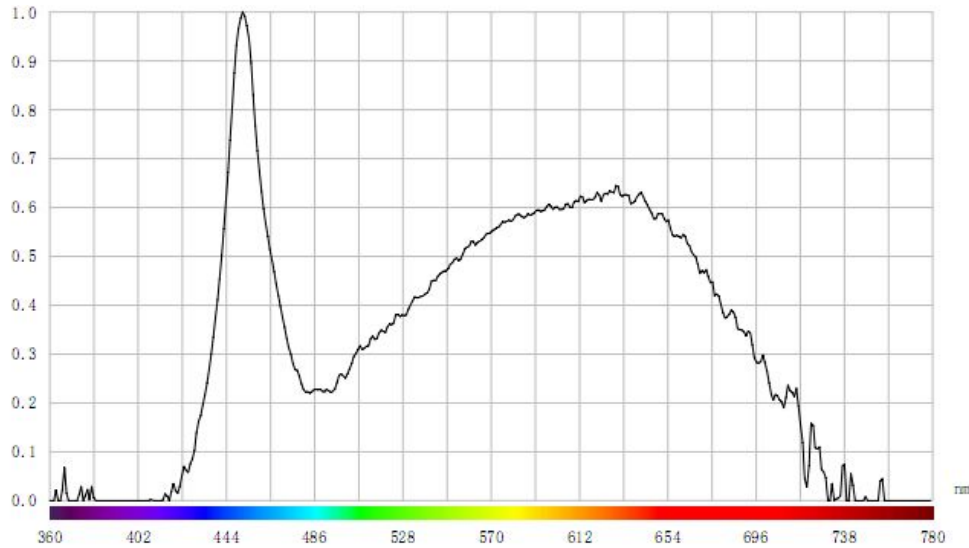

Meat+:
Deep Pink
XY: (.4845, .3478)

Fresh Meat:

Light Pink

XY: (.3710, .3294)

**Product details:**

2835SMD-60leds per meter

Features:

DC12/24V low-voltage power supply, security and energy efficiency

High brightness low power consumption

Led type: 2835 SMD led

Led lighting angle: 120°

Led quantity: 60 leds/m

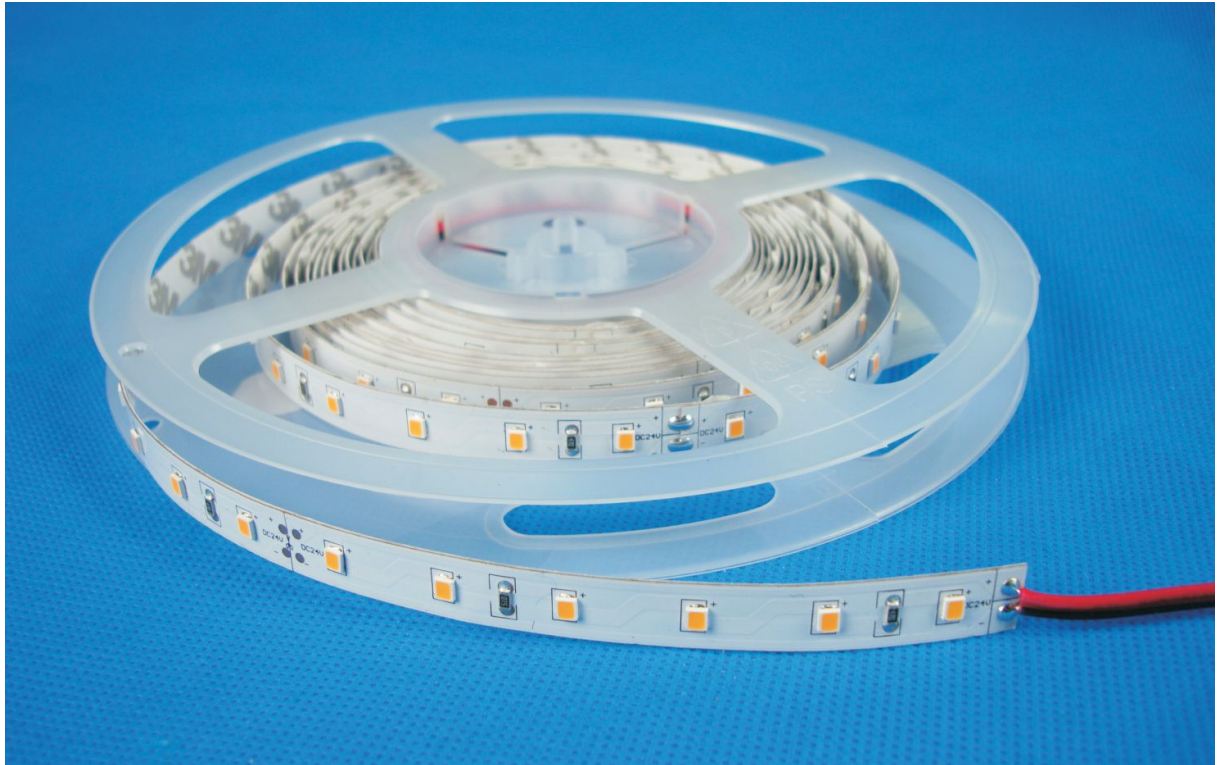

Operation temperature: -20-50°C

Life time: 50,000hours

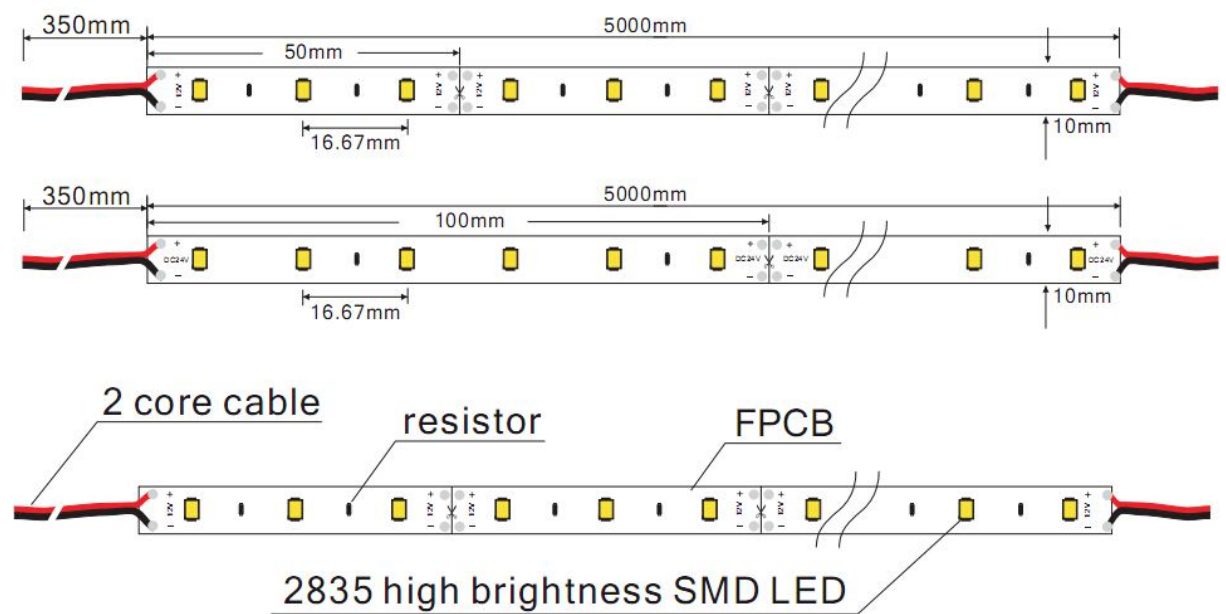

Dimmable by using dimmer controller

Waterproof rating: IP20/ IP65
